Locuri: 15 medici

Inscrieri: *Dr. Loredana Lantos Cuc* +40749606486

Endo therapy according to the SVEP protocol

- pre-operative planning of the restoration-type, shaping, irrigation and root canal filling to be used
- the preprosthetic access cavity
- minimally conservative and adaptive shaping
- elective endocanal obturation

Post-endo rehabilitation with CEREC system and SVEP protocol scan with intraoral scanner Primescan

- endocrown and full crown live project with CEREC software
- milling of the projects with Primemill
- cementation protocol of digital materials

Live on in vitro model with explanation of each step.

At the end of the session each participant will be able to try the new X-Smart pro plus endo motor, mechanical instruments and obturation system, also the CEREC system.

Workshop-ul se va desfasura in cadrul congresului iDENT 2024, Cluj-Napoca
